1. Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of independent claims 1, 12, and 21 and throughout the dependent claims, the uses of the terms "site"; "site latitude"; and "site longitude" are indefinite and unclear in that the claim language does not make clear what the "site" is. Is it the site of the radar transceiver or is it some individual site of interest represented on the radar display?

Dependent claims 2-11, 13-20, and 22-25 are unclear in that they depend from unclear independent claims 1, 12, and 21.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited prior art is of interest for relating to solar noise in radar equipment.
